Benefits of the Fund

- Liquidity
- Affordability
- Professional Management
- Performance Monitoring
- Accessibility

MARKET COMMENTARY

The equity market in October was majorly characterized by bullish sentiments in the bourse, as the NGX ASI recovered from losses in September. The rebound was supported by better-than-expected earnings and corporate actions, which masked concerns over the MSCI's proposed reclassification of Nigeria to a Standalone Status.

The NGX All-Share Index closed the month with a 4.30% gain to settle at 69,236.19 points, bringing the YTD appreciation to 35.09%. Market movers for the month include index heavyweights such as BUA Cement (+25.15% m/m), UBA (+24.40% m/m), Airtel Africa (+19.39% m/m), Dangote Sugar (+16.88% m/m), and Oando (+10.83% m/m) whose gains drove the broad index's performance offsetting losses in Cadbury Nigeria (-13.98% m/m), Okomu Oil (-9.96% m/m), Nigerian Breweries (-9.06% m/m), and Presco (-8.05% m/m).

OUTLOOK

We expect sustained optimism in the market in November 2023, influenced by continued reactions to earnings releases and potential dividends, the ongoing clearing of outstanding FX backlogs, expected mergers, acquisitions, and delisting (e.g. DANGSUGAR, NASCON, PZ, GLAXOSMITH).
