MARKET COMMENTARY

Equity Market

The NGX equity market experienced a volatile August, with the All-Share Index declining by 1.22% and market capitalization dropping by 0.05% to N55.48tn. August's negative close was largely due to profit-taking in industrial stocks, bargain hunting in oil & gas, insurance, consumer goods, and banking stocks, and banking sector recapitalization. NGX Oil & Gas Index appreciated 22.45%, followed by NGX Insurance and NGX Banking, while NGX Consumer Goods Index gained 4.88%, while NGX Industrial Index declined 13.08%.

Fixed Income Market

Investors rekindled interest in fixed income due to rate cut expectations, moderated inflation, and Q'2024 real GDP growth of 3.19%. Nigerian Treasury bills secondary market yield decreased 182bps to 23.26%, driven by increased investor interest and repricing across all bills, as seen at August primary market auction stop rates. The 10-year FGN domestic bond yield decreased by 57bps to 18.75%, indicating a strong preference for longer-term securities, possibly due to potential CBN rate cuts.

Market Outlook

Equity Market

Oil & Gas industry expansion in Oando, SEPLAT, and Dangote refinery will boost interest, while banking stocks' rally depends on major banks' half-year corporate actions, despite potential recapitalization exercise delays.

Fixed Income Market

The CBN's dovish stance in their September MPC meeting, accompanied by moderating inflation and advancing economic growth data, is expected to drive investor interest in the fixed income market.
